

Delroy Percy Jarrett passed away suddenly on the morning of November 4, 2026.

Delroy was born on August 30,1945 in Falmouth, Jamaica. He would likely tell you that as a youth, he was a champion Soccer and Cricket player who also dabbled in Ping Pong and Squash.

As a teenager, Delroy left Jamaica to join his family in London, England. While there, he honed his skills in the Electrical/Electronics field.

After marrying the love of his life, Delroy was once more on the move, this time to Toronto, where they settled and were blessed a few years later with a son and a daughter.

After graduating from George Brown College in the mid 80s, Delroy discovered what would become his lifelong career. He would work in IATSE 873 as a lighting technician/Electrician for 40 years.

Anyone who came into contact with Delroy would hear him speak proudly of his twins.

He will always be remembered for his exuberant personality, his ability to produce laughter in any room he entered and his incessant saxophone and flute playing! (Being the avid music lover)

Delroy is survived by his spouse, his son Omari and his daughter Anika.

In lieu of flowers, donations can be made to the Princess Margaret Hospital at **supportthepmcf.ca** and to Myeloma Canada at **myeloma.ca**
